

Adrian Daniel Martin received his B.E. degree in 2017 and his Ph.D. degree in Electrical Engineering field in 2023 from the University Politehnica of Timisoara, Romania. He currently holds the position of Assistant Professor in the Electrical Engineering Department at the same institution. His research interests include motor testing and control techniques, industrial equipment control, and real-time data acquisition and control systems, both for automotive and wind energy applications. He was a Visiting Researcher at the University of Texas at Dallas in Renewable Energy and Vehicular Technology Laboratory (2024). Since 2015, Dr. Martin has also gained significant expertise in the field of industrial automation.
