

Teodora Todorova received the B.S. and M.S. degrees in communication engineering and technologies and the Ph.D. degree in electronics from Technical University of Varna, Bulgaria, in 2012, 2014 and 2018, respectively. During her Ph.D. study, from 2016 to 2017, she did research at the Electrical Energy Laboratory, Ghent University, Belgium. In 2019, she became an assistant professor in the Department of Power Electronics at Technical University of Sofia, Bulgaria. Since 2020, she has been a chief assistant professor with the same department. Her research interests are in the field of power electronics converters and high-frequency magnetic components.

Dr. Todorova is a researcher with the Power System Stability Research Group at Technical University of Sofia. She is a member of the IEEE and a requestor for the formation of the IEEE Bulgarian Power Electronics Group.
