

**Martin Sack** (S'96–A'98–M'04) received the Diploma and Ph.D. degrees in electrical engineering from the Karlsruhe Institute of Technology (KIT), Karlsruhe, Germany, in 1995 and 2002, respectively.

Since 2002, he has been with the Institute for Pulsed Power and Microwave Technology (IHM), KIT.

Since 2006, he has been the Head of the Research Group Pulsed Power Technologies and Systems, IHM.

Currently he is a Lecturer of electronic devices and electromagnetic compatibility with the Department for Electrical Engineering and Information Technology, KIT.

His current research interests include pulse generators and circuits for pulsed power applications, including industrial applications, fast switching, pulsed electric field (PEF) treatment of plant cells, measurement technology related to pulsed power and PEF treatment, and electromagnetic compatibility.
