

Florin Ciuprina (Senior Member, IEEE) was born in Galati, Romania, in 1965. He received the M.Sc. and Ph.D. degrees in electrical engineering from University Politehnica of Bucharest (UPB) in 1989 and 1997, respectively. Since 1991 he has been with UPB, Faculty of Electrical Engineering, working as Assistant Professor, Lecturer, Associate Professor and currently Professor. His main research subjects are electrical insulation and dielectric phenomena, including water-treeing in cable insulation, ageing and conduction phenomena in polymers and electrical properties of nanodielectrics.
